

PALLET BAGS

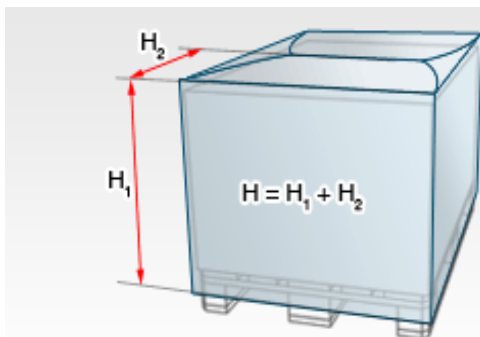

PLASTICKAR, JULY 2021

PALLET BAGS

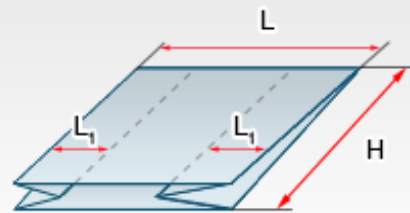

Utilizing our multi-layer (co-extrusion) film production technology, as well as printing and sewing machines, we produce a variety of pallet hoods for covering a wide range of pallets and large home appliances.

If required by the customer, the bag resistance to UV radiation could be increased by adding some specific additives.

It is worth mentioning that the pallet hoods have the ability of thermal shrinking by using industrial heat guns.

Shrink hood on palletised products

Shrink hood in pieces

Product Name	Pallet Bag
Other Names	Pallet Cover, Industrial bag
Application	<ul style="list-style-type: none"> Covering tiles and ceramics pallets Covering all kinds of pallets Covering home appliances
Features	<ul style="list-style-type: none"> Easy and cheap packaging of pallets without the need for specific technology Long-term cargo protection Resistant to UV radiation Easy transportation Possibility to print logos on the product Suitable sealing Recyclable
Thickness	Typically, 100 to 400 microns (based on the customer's request)
Width	Typically, 100 to 1000 CM (based on the customer's request)
Length	Typically, 120 to 150 CM (based on the customer's request)
Color	Transparent, Black, Blue (or based on the customer's request)
Print	Flexographic up to 6 colors (based on the customer's request)
Packaging	Packed in bulk.

Add: Unit 6, Eram Alley, Vanak St., Tehran 1994733131, Iran
